## **DETAILED ACTION**

### ***Claim Objections***

Claim 1 is objected to because of the following informalities: It is not clear whether the second operating knob is a one knob or a plurality of knobs? Appropriate correction is required.

***As best understood the following rejection is given.***

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Ishiguro (US 6,176,589).

Regarding claim 1, Ishiguro ('589) discloses a dial operating apparatus having a first operation knob 18, a plurality of second operating knobs 35 located around the first knob (figure 2), a case 35, a light source 28, a light conductor 27 and a shield member 32c.

Regarding claim 2, Ishiguro ('589) shows the second knob including a recess in figure 3.

Regarding claim 3, Ishiguro ('589) in column 3, lines 32-35 teaches that the first knob rotates and column 5, line 63-65 that the second knob is push type knob.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bathurst (US 5,171,080) shows an illuminated knob with a recess and a means of illumination in the recess.
